

**Ask us why we work in schools and we'll respond instantly:
We believe in children.**

Education isn't just a job, it's a calling.

As educators, we strive to connect with each child, discover their passions, and unlock their potential. All of our students, regardless of their zip code, deserve the tools and time they need to learn.

If we're serious about every child's future, let's get serious about doing what works: ensuring that kids come to school with what they need to succeed and that educators have the resources, respect and recognition to support their student's achievements.
