
“I get the support of a huge group of people who believe in what I do every day in the classroom.”

- Joanne Pare, Exeter EA

“I am a member of a professional community that makes a difference in the lives of thousands of children. The positive support of my peers makes a difference in my work.”

– Marci Homan, ConVal EA

“As a member of NEA-NH I am proud to support public education; the greatest form of democracy. It is my job as a teacher, an American, and NEA member to support public education and in the process, take pride in my actions. We fight for the rights of children, unions and teachers. I am proud to be part of the NEA family and support public education.”

– Anne McQuade, Manchester EA

We are educators leading the profession, not professionals leading educators.

Unlike other labor organizations, experienced teachers founded NEA and NEA-NH, and educators still run it today.

NEA-NH’s undivided attention has been focused on New Hampshire educators for more than 150 years.

Our mission is to advocate for New Hampshire’s education professionals and to unite our members to fulfill the promise of public education to prepare every student to succeed in a diverse and interdependent world.

We believe that education isn’t just a job, it’s a calling.

As educators, we believe in each other and in the students in our classrooms. Together, we make sure every educator gets the resources, respect and recognition they deserve to support their student’s achievements and advance their professional career.

NEA-NH is dedicated to providing world-class professional development for today’s educator.

Other labor organizations offer only Building Representative and Steward Training. Because we’re focused on educators, we offer members free and low-cost conferences and workshops throughout the year and across the state to provide opportunities for members to increase their skills, learn new education concepts, and earn Professional Development credits.

NEA • NH
neanh.org

You need an experienced, qualified partner to ensure your future is secure and filled with opportunity.

We have the power of numbers, and the resources you need.

Nearly four of every ten public school employees are education support professionals (ESPs) who work together with teachers and administrators to create great public schools.

Membership in NEA-NH gives you the resources, respect and recognition you deserve to support your student's achievements and advance your professional career, including:

- Helping you organize and win better pay, benefits, and working conditions
- Receiving professional and effective employment-related representation
- Defending against outsourcing of work to private, for-profit corporations
- Access to exclusive, member-only financial services and insurance benefits
- On-the-job liability insurance

The NEA-NH Advantage

NEA-NH has far more years of experience supporting, representing and advocating for New Hampshire's educators and students than any other representative organization in the state.

Our focus is public education.

Our 16,000 members are New Hampshire public school educators in all stages of their careers, including classroom teachers and other certified professionals, instructors at public higher education institutions, students preparing for a teaching career, education support personnel and those retired from the profession.

NEA-New Hampshire is the largest and most influential organization in the state advocating for public education. No other labor organization provides as many individuals dedicated to statewide activism for educators.

Three staff NEA-NH attorneys provide you with legal assistance on employment-related matters, liability protection, and support, whether you are inside or outside of your classroom.

For more than 150 years NEA-NH has been there for our members.

We believe that every child deserves to be clothed and fed properly so they can focus on learning. Our Children's Fund has distributed over \$150,000 in grants in the past few years alone to provide for the basic needs of our students.

We expect fair treatment and respect from administrators and superintendents, and we're there for our members when they need help in ensuring they receive it.

We're looking out for you inside and outside the classroom with liability insurance, representation, support, professional development, and member discounts and benefits.

NEA is your advocate on the issues most important to you.

No matter where you work in public education, together we fight for the working conditions, respect, salary, and professional development opportunities you deserve.

NEA-NH has the experience and resources you need to help ensure your professional future is secure and filled with opportunity.
