

Hi! We're KREA.

We want to help you and your students flourish in school.

Mary Wright and Beth Perkins

We're part of the National Education Association - NH

NEA-NH is an organization of people like you, who believe in the greatness in every child. We have dedicated our lives to ensuring that each child gets the chance to thrive. NEA has always been a clear, strong voice for children and educators.

We negotiate your contract and we ensure it's implemented.

-This summer, we began the process of negotiating our next three-year contract. KREA members are eligible to serve on the negotiating team and to vote on whether to approve the resulting CBA (collective bargaining agreement.) Our dues go toward the work of the tireless NEA-NH experts who help us in every step of the negotiation process.

-By New Hampshire law, KREA has the responsibility to uphold the CBA in every school. Often, we contact those tireless experts again to help us do this work effectively.

We can give you access to resources to help you be a happier, stronger teacher.

NEA - NH offers excellent free or deeply discounted professional development for members, including the Fall Instructional Conference. This conference is held on KRSD's October PD day. It is crammed full of interesting and useful sessions, from CPR training to the latest research on assessment. (Plus, there is a truly delicious lunch that includes really good cookies.)

We can help you manage daily challenges that busy teachers don't always have time for.

As a KREA member, you get:

- Professional Liability Insurance
- Complimentary Life Insurance
- Access to a service that helps you find the best deal on a car
- Access to thousands of on-line academic research sources

-2 free 30-minute consult sessions per year
for legal advice on personal matters

We advocate for excellence and efficacy in the Kearsarge schools.

-Our president, Mary Wright, meets regularly with Superintendent Feneberg to work on behalf of students and teachers.

-Beth Perkins attends the KRSD School Board meetings to share good news from our schools and to be our voice as the School Board makes decisions.

-Building Representatives meet as the KREA Board each month to be sure members' ideas and concerns are heard and to plan the work of the association.

So if that sounds like important work, done by a committed team of professionals...

Here's how you can be part of it:

- Send an email to Mary or Beth. We can answer more questions you might have.

- Take a membership packet. If you need more information about filling it out, get in touch - we'll help.
